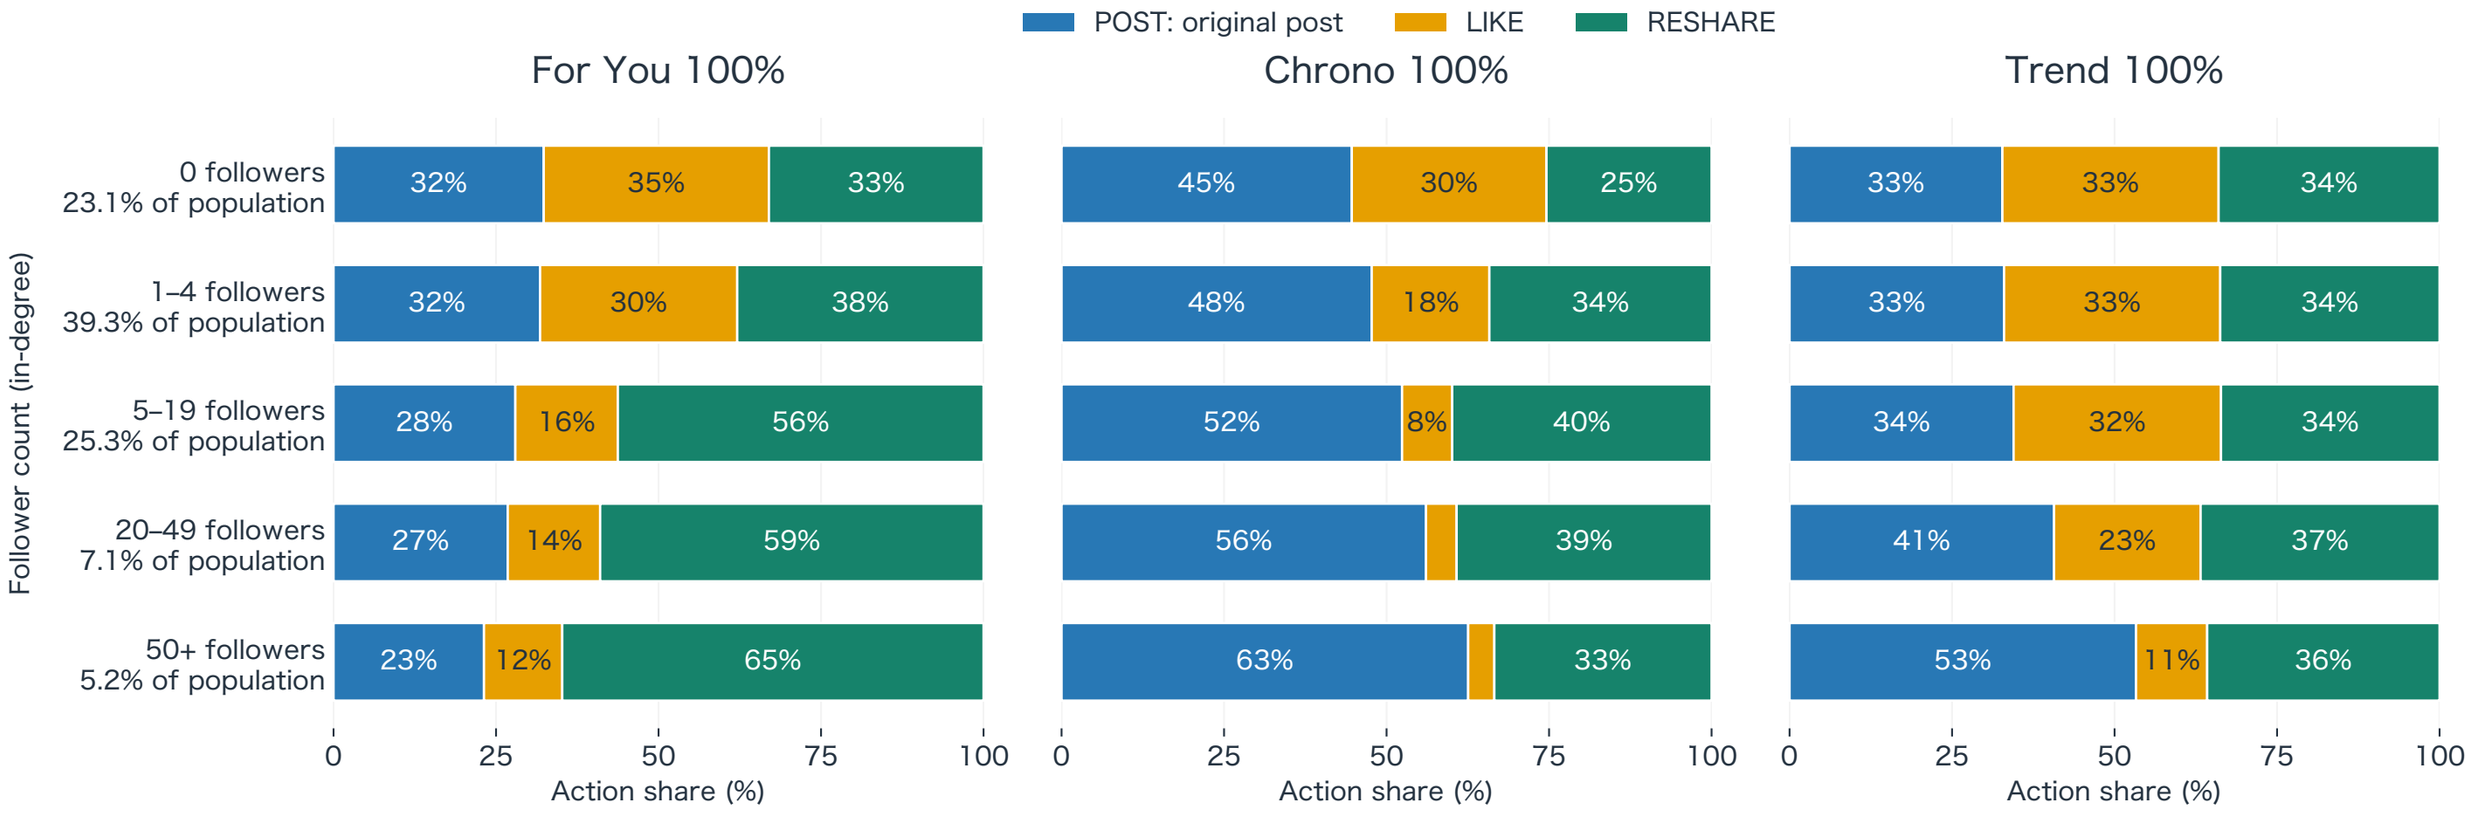
1 | Action choice by follower group

Each bar shows the group's action mix (100%). Blue = POST; orange = LIKE; green = RESHARE.

Population shares count agents, not actions: five-seed means, N = 1,000 per seed; identical across feed modes.



η = 0.03; k = 20; rewire off | Seeds 0–4 | Final 5,000 steps | Equal agent weights within groups; equal seed weights
