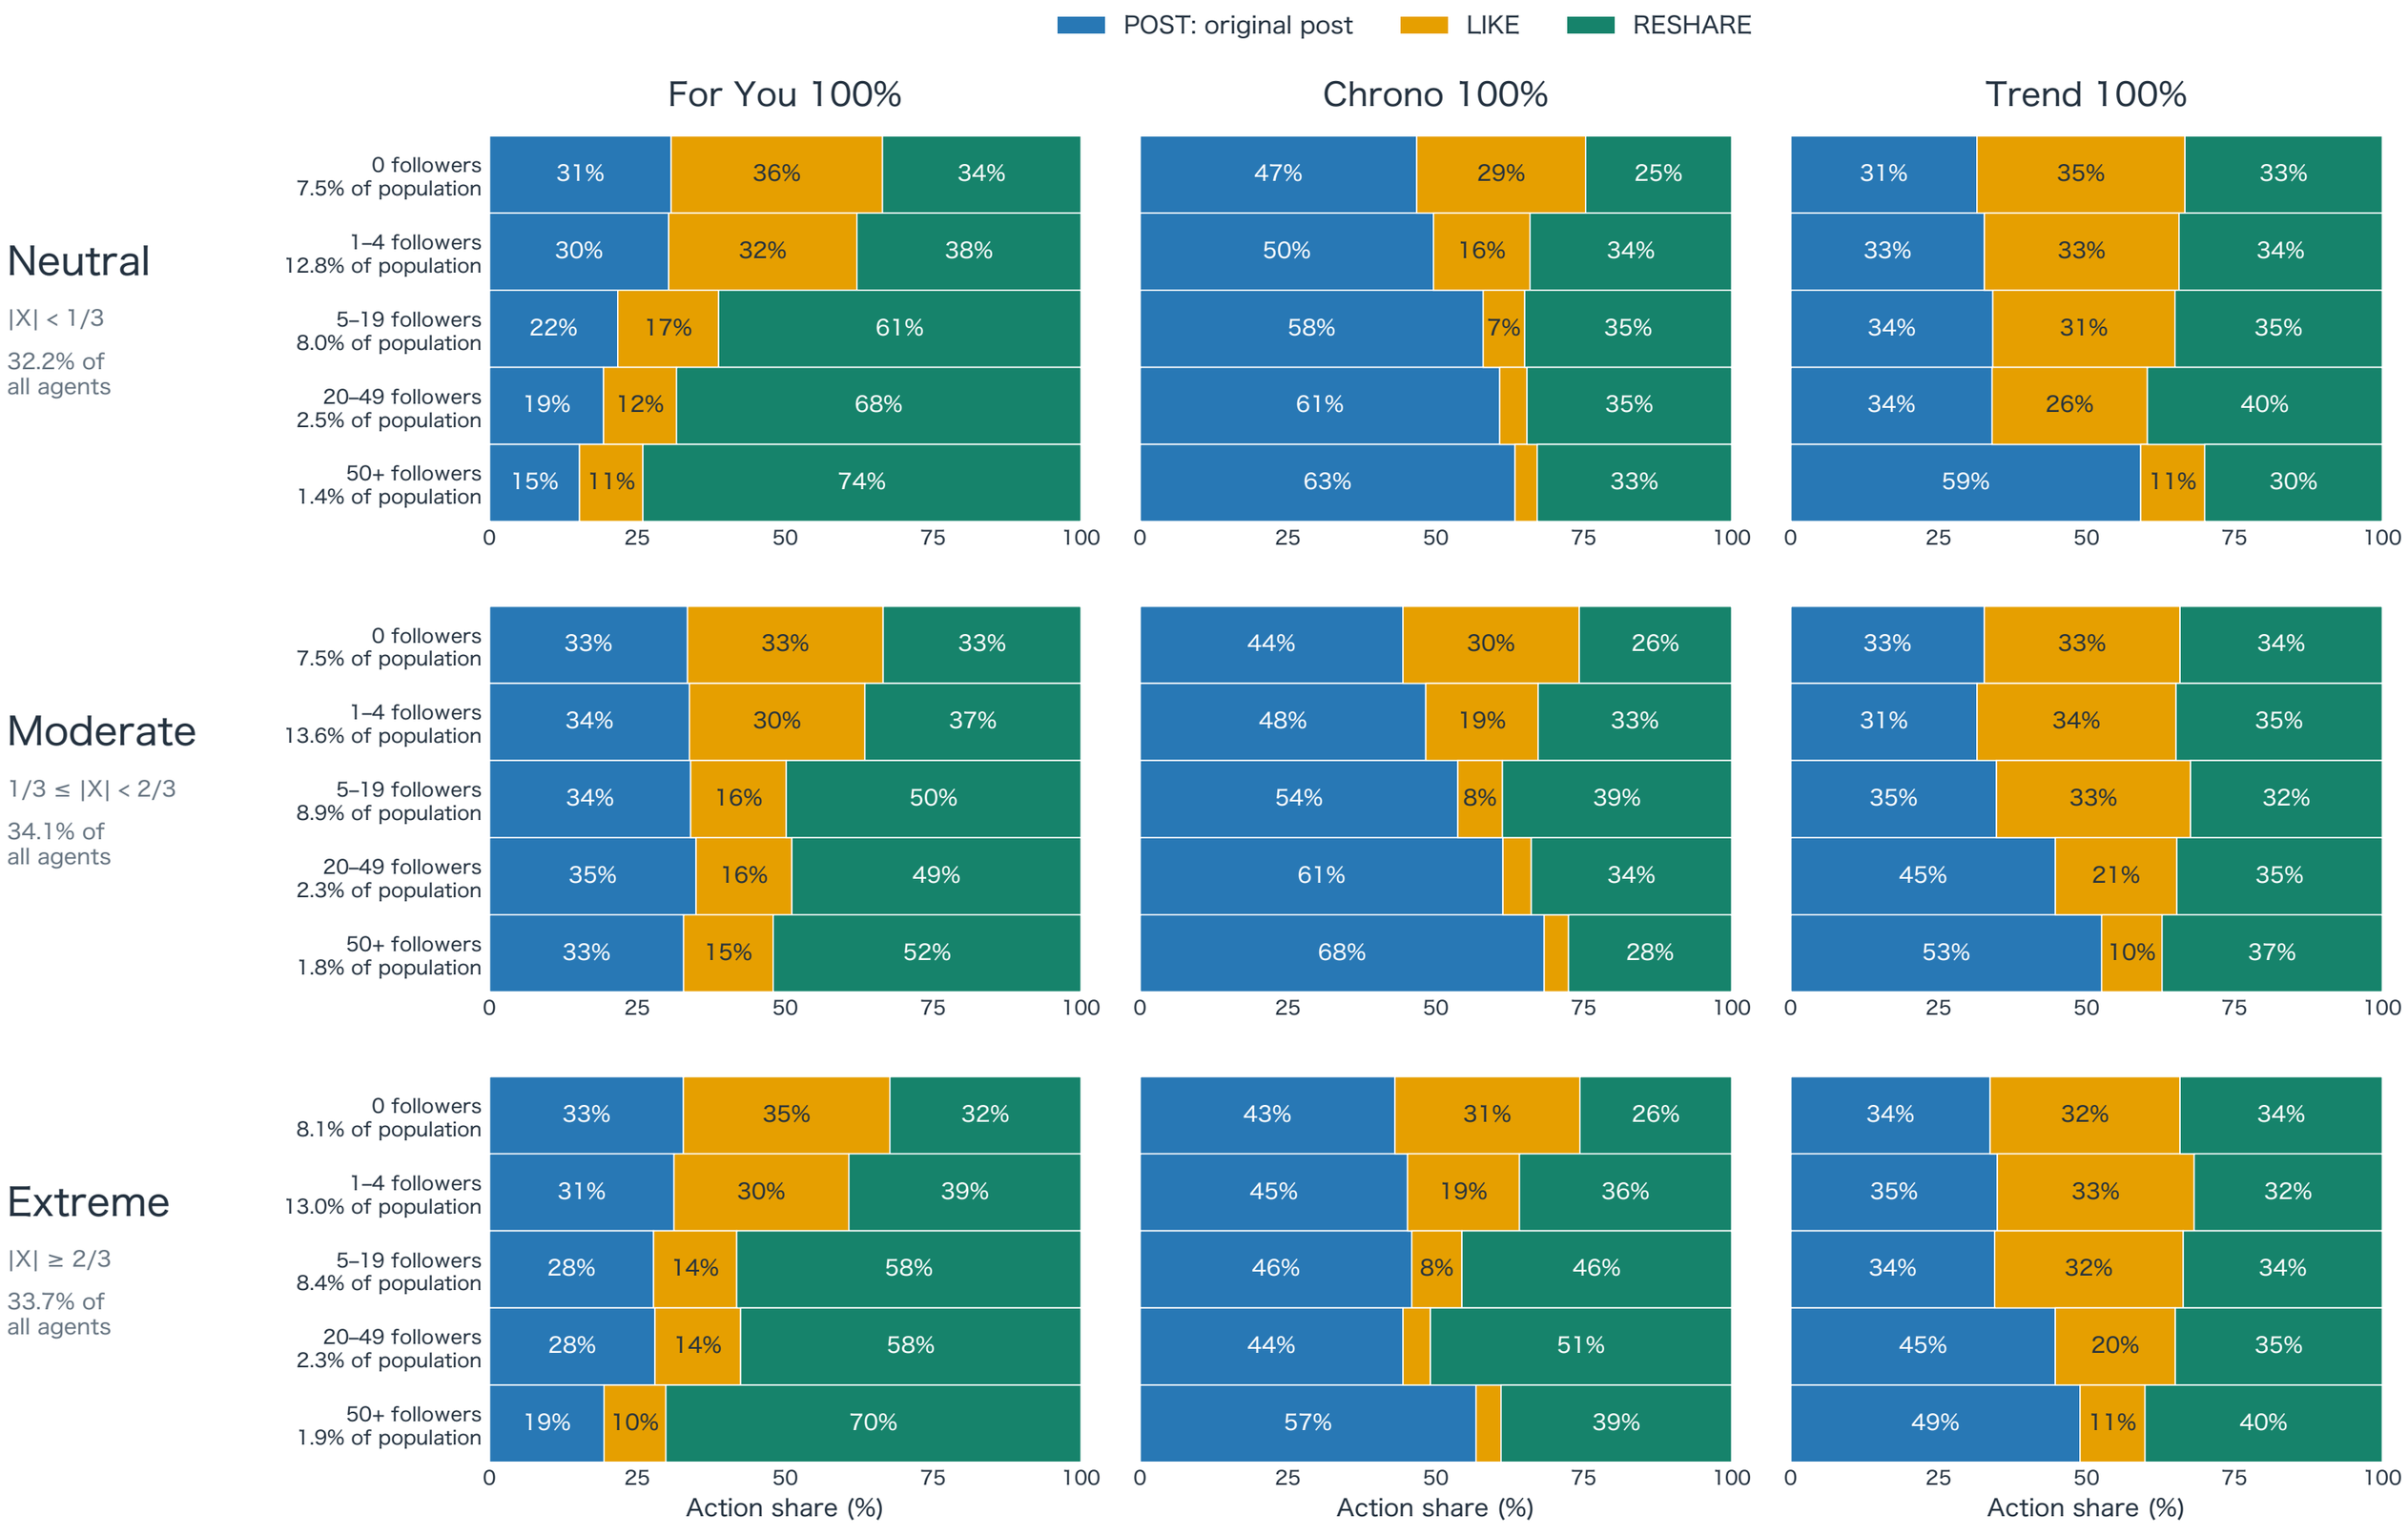
1b | Action choice by feed, X group, and follower count

Each bar shows the action mix within an X × follower group (100%). Bars are contiguous within each panel.

Population labels show each X × follower group's share of all agents; five-seed means, N = 1,000 per seed.



η = 0.03; k = 20; rewire off | Seeds 0–4 | Final 5,000 steps | Equal agent weights within groups; equal seed weights
